My Favourite Hobby

My favourite hobby is reading storybooks. I like reading when I have free time.

I learnt to read storybooks when I was three years old. My Mum taught me to do it. When I read storybooks for the first time, I felt happy.

I feel interested when I am reading storybooks because all books are interesting. I like storybooks because each story has an interesting opening and ending. I can learn a lot of knowledge from reading storybooks.

I read storybooks every day and everywhere. I usually read storybooks with my Mum.
