My Favourite Hobby

My favourite hobby is playing the piano. I enjoy practising it when I have free time.

I started to learn to play the piano at the age of six. My mother brought me to see a piano teacher. She taught me how to play the piano. I was interested because my sister learnt to play the piano too. I felt excited the first time I played the piano.

I like playing the piano because it is a good and healthy hobby. It makes me relaxed and calm when I play it.

I usually play the piano at home. I do it every day after I finish my homework at night.

Although I play the piano alone, I enjoy it very much. Now, I can play many good pieces of music.
