### My Dream Occupation

My dream occupation is being a football player. I wish to be a football player when I grow up.

Football players run every day. They need to practise playing football and do exercise. Being a football player is an exciting job.

I wish to be a football player because I like to play football. I think it is interesting to be a football player. I can play football every morning if I become a football player. I will be very happy too.

To make my dream come true, I will do more exercise. I will run every day.

I hope I will be a football player when I grow up.
